DETAILED ACTION

Specification

1. The specification and abstract of the disclosure is objected to because they use the trademark "VELCRO". The use of the trademark VELCRO has been noted in this application. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 7 depends from cancelled claim 5. This renders the claim indefinite.

5. Claim 13 depends from cancelled claim 11. This renders the claim indefinite.

6. Claim 1 recites "means for selectively maintaining said mast section at a substantially stable position" in lines 15-16. This recitation invokes 35 USC 112, 6th Paragraph, because it: (a) uses the phrase "means for"; (b) modifies the phrase "means for" with functional language; and (c) does not modify the phrase "means for" with structure for achieving the function. From MPEP 2181:

35 U.S.C. 112, sixth paragraph states that a claim limitation expressed in means-plus-function language "shall be construed to cover the corresponding structure...described in the specification and equivalents thereof." "If one employs means plus function language in a claim, one must set forth in the specification an adequate disclosure showing what is meant by that language. If an applicant fails to set forth an adequate disclosure, the applicant has in effect failed to particularly point out and distinctly claim the invention as required by the second paragraph of section 112." *In re Donaldson Co.*, 16 F.3d 1189, 1195, 29 USPQ2d 1845, 1850 (Fed. Cir. 1994) (in banc).

The disclosure does not identify the corresponding structure that performs the recited function of claim 1. The disclosure describes a "mast maintaining mechanism" on page 5. Due to inconsistent language, it is not clear if this is the corresponding structure. And if the mechanism is the corresponding structure, then it is unclear if the corresponding structure is the halyard and cleat, or the halyard, cleat, and VELCRO. Since the corresponding structure is not properly identified, it is impossible for the skilled artisan to determine the corresponding structure and its equivalents. 35 USC 112 6th Paragraph states that: "such claim shall be construed to cover the corresponding structure, material, or acts described in the specification and equivalents thereof." If one cannot determine the corresponding structure and equivalents thereof, then one cannot determine the statutory scope of the claim coverage. Thus the claim is indefinite. Therefore the claim fails to satisfy 35 USC 112 2nd Paragraph. Claims 2-7. depend from claim 1 and are rejected for the same reason. Claim 8 has a similar

recitation and claims 9-13 depend from claim 8. For examination it will be assumed that the corresponding structure is the: halyard, cleat, and VELCRO member.

Allowable Subject Matter

7. Claims 1-4, 6-10, 12, and 13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

8. Applicant's arguments filed 1/28/05 have been fully considered but they are not persuasive. Applicant requests that all references to the trademark VELCRO in the specification be corrected by examiner's amendment. Applicant is reminded that it is applicant's responsibility, not the examiner's, to put the application in condition for allowance. Therefore, the objection has been maintained.

9. Applicant states that "applicant further agrees with the examiner that the corresponding structure of the mast maintaining mechanism is the halyard, cleat, and VELCRO, member...". This remark apparently is directed toward the 35 USC 112 2nd Paragraph rejection regarding the invocation of 35 USC 112 6th Paragraph. Applicant's assertion of the corresponding structure in remarks during the prosecution does not cure the noted defect. The claim is still indefinite because a person reading the claims and specification cannot ascertain the scope of the claims because the corresponding structure of the means-plus-function claim language is not clearly identified in the specification. Therefore, the rejection has been maintained.

Conclusion

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
